

PROTOS ELECTROMECH PVT. LTD.

AN ISO 9001:2015 CERTIFIED COMPANY

WATER COOLED RESISTOR

Series: WCR

Features:

- * Direct cooling with or without heat sink
- * Mounting arrangement available as customer need
- * Inductive & Non-Inductive Types Also Available
- * 70% Heat Dissipation in Water
- * Low Surface Temperature
- * 50% Size Reduction Compare to Air Cool
- * Water Connection as Per Customer Need
- * Low Temperature Coefficient for Better Stability.
- * Multi Range Available

Specification:

- * **Ohmic Range:** 1E ~ 10K
- * **Tolerance:** Available on Request
- * **Dielectric Voltage:** 4KV & 6KV
- * **Surface Temperature:** 200°C@40°C Ambient (Depends on Insulation Level) with Water circulation of 15Ltr/Min.
- * **Derate to Zero:** At 350°C Ambient

Construction:
